

Friends & Family,

Watch Video Clip

Owsley County Outreach Corp. from Booneville, Kentucky are in desperate need of soup and canned meat for their backpack program. They requested that we have a special food drive for them.

According to the 2010 Census, Owsley County Kentucky is the # 1 most impoverished county in the United States. The Outreach's backpack program provides meals to children who do not have enough food to eat over the weekend, holidays and summer break. (When classes are in session, the schools feed them.)

Would you please help the hungry children here in America? From now through May 30th, we will be collecting soup and canned meat (single serving size; the type that goes into child's lunchbox). If you want to donate and do not have the time to shop we'd be happy to shop for you. We also welcome your prayers in this effort.
